CRITICISE WOLD AND RICH

North Dakota Farmers Want Reserve Bankers Removed.

Fargo, N. D., June 13.—Resolutions were adopted at a meeting of farmers representing the Nonpartisan league at Dickinson, petitioning President Wilson to remove from office Governor Theodore Wold and Chairman John H. Rich of the North District Federal Reserve bank because of their recent statements as to the alleged apathy of the farmers of the Northwest in subscribing for Liberty bonds.

The resolutions assert the two men in their remarks have reflected upon the patriotism of the farmers, that they have hitherto shown favoritism in favor of the Minneapolis Grain exchange as against the Equity Co-operative exchange, which is the farmers' organization for marketing their products.

The petition asks that officers more in sympathy with the farmers be named to succeed Mr. Wold and Mr. Rich.

Pleading guilty to federal warrants charging them with failing to register June 5, seven I. W. W. alien Finns of Crosby were bound over to the federal court under bonds of \$1,000 each by Commissioner W. A. Fleming and given until Friday afternoon at 1 o'clock to secure bondsmen.

Deputy Sheriff John H. McGuire of St. Paul, was in attendance. He is the same deputy who arrested a German Methodist minister in Minneapolis for telling Wilson to go to hell with the Liberty Bonds.

The party of seven who had been arrested in Crosby last Thursday are Otto Johnson, Matt Johnson, Saunderson, John Salo, Phoenix Brown, Henry Saari and Werner Sero.

Judge Fleming went to great lengths to explain the federal law and each said he had not registered. And for that matter each on Saturday again refused to register when shown that leniency by the government.

The federal court convenes in Duluth July 10, at which time their cases will come up.

### BRAINERD CHAPTER TO BE ORGANIZED

June 19th at the Chamber of Commerce Rooms at 2:30 O'clock, Canvass of Members

### MEETING WAS HELD YESTERDAY

At Which Time it was Planned to Make June 19 Meeting as Democratic as Possible

The Brainerd Chapter of the American Red Cross will be organized at a meeting to be held Tuesday, June 19, at the Chamber of Commerce rooms at 2:30 P. M.

An active campaign for memberships will be inaugurated at once, each ward of the city will have its Red Cross booth, presided over by prominent young ladies, where the citizens of this city are expected to leave their names and dollar membership fee as a practical demonstration of their interest in the great work before this organization and their willingness to do their bit for the nation.

#### Preliminary Meeting

A meeting to discuss the organization of the Brainerd Chapter was held at the Chamber of Commerce rooms yesterday afternoon. Mrs. J. A. Thabes, authorized chairman of the organization committee, presided and Mrs. W. H. Gemmell acted as secretary. The purpose of the meeting was to discuss the organization of the chapter and to discuss the organization of the chapter and to discuss the organization of the chapter. The purpose of the meeting was to discuss the organization of the chapter and to discuss the organization of the chapter. The purpose of the meeting was to discuss the organization of the chapter and to discuss the organization of the chapter.

#### Plans Outlined

It is planned to make the representation at the meeting set for June 19 as democratic as possible and for this reason, the canvass for memberships prior to that time, will be conducted along energetic lines, with the work to continue after the organization is completed and a house-to-house canvass made, to see that every family is well represented with the little Red Cross pin, the sign of affiliation with an organization recognized as second to none in efficient, heroic work for the nation and suffering humanity at home and abroad.

#### Booths in Each Ward

Mrs. O. H. Johnson was made the chairman of the committee to have charge of the membership booths, with Mrs. Bertha Thevot and Mrs. Fred Parker as her assistants. It was decided to locate these booths as follows: First ward, post office building; second, the Webbers store, 9th and Main streets; third, Kaatz & Son store, Northeast Brainerd; fourth, K. S. Bredenberg store, Oak and 13th streets; fifth, Dunn drug store, Front street.

These booths will be handsomely decorated and presided over by some one or more of the popular young ladies of Brainerd. The "polls" will be open from 1 P. M. until evening and the fair registrars will be delighted to list all public spirited men, women and children of the city and supply each with a membership card and Red Cross button.

#### Publicity Committee

The following were named as a committee on publicity: H. P. Dunn, R. B. Withington and Fred T. Lincoln. The progress of the campaign for memberships in each ward will be made known through the local press by this committee and it is anticipated that a keen rivalry will exist among those in charge of the membership booths and their friends and that nucleus of a splendid organization will have been secured by the time for the organization meeting, June 19 at 2:30 P. M. at the Chamber of Commerce rooms.

#### Methodist Ladies Aid

Thursday afternoon in the social rooms of the Methodist church, the Ladies' Aid society will be entertained by Mesdames Leona Treglawny, Clarence Farwell, Fred Reid and W. W. Michael. Strangers and visitors are cordially welcome. At this time there will be a sale of home-made cooking by the Philaetha class of the Sunday school who are anxious to raise their pledge to the building fund for the new church.

### REV. LOWRIE TO SPEAK

At Salvation Army Barracks Tonight, D. T. Lawrence Spoke Yesterday

Rev. W. J. Lowrie, pastor of the First Presbyterian church of this city, will be tonight's speaker at the Salvation Army barracks on Front street. Rev. Lowrie is no stranger to the church going public of Brainerd, having for years occupied a very prominent position in the religious activities of Brainerd and the surrounding territory.

### EXCELLENT MUSIC

"Womanhood, The History of the Nation," Orchestra Under Direction of Julius Witham

"Womanhood, the Glibry of the Nation," played to capacity houses at the Best theatre on Monday and Tuesday evenings.

The orchestra was under the direction of Julius Witham and its music proved to be very effective in portraying every emotion of the pictures.

The score for the cornet had many bugle calls and was ably interpreted by William Graham. His high tones were as clear as a bell.

### Dedication Visitors

Some of those who have returned to their homes after attending the dedication of the new Methodist church, are Dr. John Thompson, D. D., of Chicago, who came all the way from that city to take the place of Bishop Charles Bayard Mitchell who was to have dedicated the church but was ill and not able to be present. Dr. Thompson more than pleased his congregations and though not the bishop, filled his place most admirably and demonstrated to the people that Chicago possesses some talented speakers. Dr. Thompson left Brainerd early Monday morning.

Rev. E. E. Satterlee and wife, former pastor, who motored from Grafton, N. D., to Brainerd with friends, left early Monday morning.

Miss Bessie Mae Fasolt of St. Cloud musical instructor in the St. Paul Musical Academy, who visited at the Methodist parsonage, returned early Monday morning. Miss Fasolt has a beautiful soprano voice and delighted the congregations twice on Sunday and also on Monday evening at the reception by her singing.

Rev. A. J. Abbott of Pine River returned Tuesday afternoon. Rev. Charles Fox Davis, former pastor, after a most delightful visit with his many Brainerd friends, returned to his home in Minneapolis, Wednesday morning.

Dr. W. C. Hodgson, district superintendent, was very much pleased with the new church in all its departments, and after hearty commendation, returned to his work Tuesday morning.

### Philaetha Bible Class

Last evening the Philaetha Bible class of the Methodist Sunday school was entertained in a very pleasant evening by Misses Gertrude and Mary Clark, Gladys Nitterauer and Fern Hitt. At the semi-annual election of officers which was held at this time the following were elected for the ensuing six months:

President—Mrs. George Brown.  
First Vice President—Miss Gertrude Clark.  
Second Vice President—Mrs. Herbert Peterson.  
Secretary—Mrs. E. E. Long.  
Treasurer—Miss Selma Benson.

### Methodist Mid-Week Service

Thursday evening at 8 o'clock will occur the first regular Bible study and prayer service in the new church. The pastor is anxious that a large representation of the membership be present on this occasion. The subject under discussion will be "Gratitude." The beautiful solo, "Give the Flowers to the Living," will be sung by Arthur Cartwright.

### Marriage Licenses

June 9, William Abel Howard and Miss Anna Marie Severson.  
June 12, Milan Pavlica and Miss Mary P. Malovich, both of Cuyuna.  
June 12, Carl E. Bergstrom and Miss Mabel M. Dawson, both of Cuyuna.

### Swedish Bethany Ladies Aid

The Ladies' Aid society of the Swedish Bethany church will be entertained tomorrow afternoon by Mrs. Emil Anderson and Mrs. Renus Johnson, at the home of the former. All are welcome.

### Bethlehem Aid

The Ladies' Aid society of the Norwegian Lutheran Bethlehem church will meet Thursday afternoon, June 14, at the home of Mrs. Hans Erickson, north Tenth street.

## Just the Same Old Story

You know the boy who wears this uniform is an American soldier, but you may not know that the girl is British. The photograph was taken in London. It proves that the American soldier is popular wherever he goes.

This one soon found acquaintance in London. He went there with an American medical unit. But the British censor would not for some reason permit his name to be given.

### TUB FROCK.

Pointers About the Washable Models For Summer.

Some of the new gingham frocks are of the simplest and most practical character, frocks meant to stand hard wear and to be sent to the tub whenever necessary; yet a line here or a line there, the cleverness in cutting, the charm of color, the daintiness of collar and cuffs or guimpes—such things as these give even the plainest of the models an air of modishness.

Much is done with the rather large black checks in blue and white, black and white, pink and white, etc., and one of the simplest yet most popular of these black check gingham shows good lines and finish and pipings of white.

Less practical because not tubbable, but extremely good looking and original, is a little dress in which Scotch plaid gingham is wedded to black taffeta. The gay plaid forms most of the upper part of the frock, but from the hips down the skirt is of black taffeta, and there is a little of the black taffeta about the collar and cuffs and buttons.

Plain gingham was combined with check or plaid very successfully in other models, and white plaid or white organdy often relieved the darker colorings. One red and white broken plaid frock trimmed in narrow pipings of red and with a delectable little perlim vest and collar of fine white batiste, hand tucked and embroidered, was a great favorite with buyers and pretty enough for summer afternoon wear whenever one might in other seasons have worn a smart linen frock.

There seems to be a definite effort to place the white linen frock in the limelight, and it would be hard to find any thing that would look cooler, crispier, more immaculate, for mid-summer wear than fresh white linen, but that word "fresh" is the shibboleth that linen pronounces only with great difficulty. If there is a material that loses its freshness more easily and speedily than white linen, that more quickly looks mussed and wrinkled and all that the summer dress should not look that material is unreliable indeed.

The colored linens are not only fewer than usual, but seen on the whole less attractive in color, a fault they share with many of the season's materials, thanks to the complications regarding dyes. However, there are linens of lovely colors, even if not in the usual quantity, and here and there one sees a linen frock that is altogether charming.

Cost frocks of linen in which a smock like coat of the stuff falls over a skirt hung from the shoulders by a suspender or skeleton underbody of white muslin are made up in various colors, as are genuine smock frocks in two pieces, and are comfortable and useful for sports wear or workaday uses.

### THE AMERICAN GIRL.

Distinctive Points That Mark Her Racial Type.

We may be asked, "Well, what is an American girl?" She is just this: A vital person, with a combination of health, vigor, wholesomeness and beauty. The fact that many American girls have in some instances a certain amount of hereditary foreign blood makes them, as a class, a delightful combination of personalities. The typical American girl is usually described as being a tall, slender person, with free and graceful carriage, plenty of poise and a face that bespeaks a well balanced mind. One is apt to visualize her as a person who can adapt herself to any and all circumstances and be an interested and interesting conversationalist in groups of young and old. Taking her all in all, she is a person who is a delightful companion.

The American girl is generally considered beautiful. If technically analyzed, the main charm of her beauty lies in the fact that her features are chiseled, while many of her contemporaries are beautiful from the standpoint that their features are molded. There is a subtle difference. It would be difficult to state authentically just what the coloring of the American girl is, for she is invariably a blending of nationalities and thus is a variation of type.

### Painted Floors.

No floor is so bad but that it can be made presentable by painting. Two coats are usually necessary and after that one or two of varnish or shellac. If the cracks are very wide they may be filled prior to painting. So many women feel that their floors are too bad to permit the use of rugs, but paint will work wonders.

### CAUSES FURORE IN PARIS

Order Shutting Off Gas Thirteen Hours Daily.

Paris, June 13.—The decree ordering the shutting off of gas for thirteen hours daily has caused consternation in Paris, where many industries are dependent on gas for light and power. It is now announced, however, that the measure will not be applied to the capital and suburbs and it is considered doubtful if it will be applied anywhere.

The newspapers point out so many exceptions that will have to be made that the application of the decree appears impossible.

## OUT OF BELGIUM

Wife of the Minister to Brussels In Relief Work.

WAS ON THE BATTLE FRONT.

After Months of Heart-rending Experiences Near the Carnage Mrs. Whitlock and Her Husband Now Rest in France.

Together with her husband, the American minister accredited to Belgium, Mrs. Brand Whitlock recently visited the section of the battle front held by the Belgian soldiers. The minister and his wife, with King Albert of the Belgians, were in the danger zone most of the time during their visit.

Through all the strife and bitterness of desolation Mrs. Whitlock has been with her husband, aiding and counseling. It is not a life of ease and luxury, if the stories that are coming

from there are true. Correspondents say that Mr. and Mrs. Whitlock have been forced to live on black bread and the other coarse and meager fare of the natives of the country.

As mayor of Toledo Mr. Whitlock established an enviable reputation, and his writings have intrenched him in literary favor. Mrs. Whitlock also is well known in literary circles, having contributed to leading magazines.

In every Belgian town you will find some kind of witness to the people's regard of this pair. The shops sell varieties of cheap little colored postcards, poorly drawn, some of them, but all bearing Mr. Whitlock's likeness and a few words of devotion and gratitude. Medals bearing his profile have been struck. Engravings of him are on sale in many cities. Almost everything he says or does goes by word of mouth from one to another all over Belgium. When Mr. and Mrs. Whitlock walked down a Brussels street all the men doffed their hats, and all the women, and even the children, bowed to them.

Mrs. Whitlock has done relief work for these stricken folks through months of devotion.

### HANGING THE FLAG.

Points About the Display of Your Patriotism Worth Knowing.

Since our people have been stirred up to the point of asserting again their respect and regard for their national emblem by displaying it more frequently than usual certain little points of propriety should be remembered.

Every one knows that the flags on public buildings and ships in the army stations are raised in the morning and lowered at sundown just as regularly as the days come and go.

But a noted military authority recently gave out a code of etiquette in regard to the use and treatment of a flag which every householder should know.

The proper time for raising or putting out a flag is at sunrise or after, never before. The flag must be lowered at sunset. It is an actual mark of disrespect to allow the flag to fly throughout the night.

This is rather disconcerting to the average citizen, who thought he was performing a patriotic duty in flying his flag during some special celebration lasting for several days or a week. Naturally it is more or less trouble to raise it and lower it, so it was just allowed to stay during the entire period. The idea of offering disrespect to the flag was furthered from his thoughts.

The same authority also states that in drawing a flag across a building the proper position for the blue field is toward the north or toward the east.

These are little things, but there is a right way as well as a wrong way for everything, and surely every one wants to treat the flag properly.

## Ready For That Vacation?

Let us outfit you

for health and beauty

No, you are not quite ready for your vacation yet, unless you have a complete line of health and beauty requirements. What do you need for health? Why, simple little headache remedies, stomach remedies, indigestion remedies, maybe a good little tonic bracer, a corn cure, a foot powder. And for beauty, of course, there are perfumes, toilet waters, soaps, talcums, face powders, tooth cleaners, hair preparations, different kinds of brushes, sponges and things of that sort. Better make up a complete little outfit now, and you will find that it will help you all the better to enjoy your vacation. You will come home not only happy, but healthy and looking as well as you feel.

## PRESIDENT CAN STOP SUPPLIES

Senate Approves Espionage Bill With Embargo Clause.

AFFECTS NEUTRAL NATIONS

Measure Places in Hands of Chief Executive a Weapon by Which It Is Intended to Prevent Goods From the United States Reaching Germany.

Washington, June 13.—Control of exports was given the government when the senate approved the administration espionage bill with its embargo clause.

The measure, sent to the president for his signature, puts into the hands of the executive a weapon by which it is intended to stop supplies from entering Germany through neutral countries.

Passage of the bill removes to a great extent the necessity of the British blockade, since the United States, originator of most of the exports that reach neutrals, will see that the countries are supplied with just enough food and materials for their own needs.

The measure also gives another powerful weapon to the president in that it permits him to trade for articles controlled by the allies, which heretofore have been permitted to come to America only in limited quantities.

Fair control over shipping will result. The act will require licenses for export cargoes and the government can force neutral ships in harbors where they have sought safety from submarines to transport cargoes needed by their home countries.

### HOME MANNERS.

The greatest courtesy of which we are capable should be shown in the home. It is easy to be careful of the feelings of those about whom we care little. Should we not do as much for those who are dearest to us? There is no greater cruelty than to count upon our love's "tiding over" the effect of impatience, discourtesy, harsh criticism and all the unloving, stinging darts that most of us reserve for home use.

## AFFINITY KILLS HERSELF

Fourth Victim in Chicago Matrimonial Mixup.

Chicago, June 13.—The Jaros-Havelka-Jaros love threesome has claimed its fourth victim.

When John Jaros, wealthy contractor, his wife and their two-year-old daughter were found dead in their home Sunday morning the police said Mrs. Jaros had shot her husband, then asphyxiated herself and baby with gas.

Previous information, the police said, showed Jaros had been maintaining another establishment in Riverside. There, the police said, he was wont to spend most of his days, while his nights were given to his real wife and six children. So the police went searching for the other woman.

Finally they found her—dead. She had taken her own life. She was Miss Josie Havelka.

Government Order for Automobiles Totals \$150,000,000.

Chicago, June 13.—Tabulation of the world's biggest motor order, for which bids recently were asked by the United States government, showed that eighty-three factories had put in bids for chassis and seventy-seven for bodies. The war order consists of 70,000 chassis and bodies for trucks, costing approximately \$150,000,000. In a few days bids will be opened here for 10,000 motorcycles.

## THE SOLDIER AND THE GIRL

Duluth News Tribune)

The worst place on earth for an army camp is near a large city. Every officer dreads such a location.

The worst place to put soldiers is on guard duty in a city. It is worse for them than the trenches. It is a hundred times worse for their families and the families of others.

Duluth is not alone in its problem of the soldier and the girl. St. Paul at least has it in even more flagrant form. It is another condition, not a theory, and must be met as a condition.

It does not have to be. No such thing has to be. To excuse it is easy but cowardly. To seek to hide it is impossible. To fail to end it will be criminal.

The men now stationed here are in federal service. They are no longer under national guard auspices. They are of the central department whose headquarters are in Chicago.

They are, however, under the command of officers who went with them into the federal service. They are under military rule and amenable to military discipline.

They are human. The girls who chase after them and whom they chase are human. The men take greater liberties because of their uniforms and the girls grant more for the fascination of the uniform.

But it is time both the men, all young fellows, and the girls were made to realize that a uniform is but clothes and grants neither special privilege or is a guaranteed badge of chivalry.

The men should be held closely to their camps. That is the business of their officers. Street liberty should be short and mighty little of it. If forms of recreation and amusement are needed at the camps, Duluth, we know, will provide them.

On the city side it is the business of our officials to keep all women away from the army and the camps. A zone can be fixed around each of them and no one permitted to loiter within these zones.

The News Tribune is not inclined to keep still when things need to be said. Publicity is the greatest of curses for evil and just as soon as Duluth realizes these conditions they will end. Not even the men will venture to tolerate them.

Neither must it be inferred that all the men are at fault; they are not. As a whole they are a fine, soldierly body. The minor part are at fault, and a dose of discipline that would shock decency and sense into the heads of these would cure them.

## WHAT TO CALL THE WAR

The fact that the government, through its pension department, has given the war an official name does not seem to have settled the matter. The public hasn't been much impressed with the title, "The War of 1917." It lacks descriptiveness. It sounds inadequate. So the controversy continues.

One of the latest suggestions, made by a Fort Smith, Ark., man, is that we call it "The German War." He explains:

"The war should be named for those who made it, and theirs should be the stigma fixed thereby. The deep damnation of this infernal strife should not be shared by anyone with Germany, not even by her accomplices among the nations. Germany and Germany alone is to blame, and she should bear the burden of ignominy."

We wouldn't be surprised if this title really "took." There's sound

reason behind it. It means something. And it has a "punch."

The ladies of Brainerd should not lose sight of the fact that an opportunity will be presented on Friday afternoon at the domestic science rooms in the high school building of obtaining information regarding the canning of vegetables, something necessary this year if ever. Mrs. Baker of the state agricultural school has been secured for Brainerd in this connection and as an expert on this line of work she has no equal. The capacity of the domestic science rooms should be taxed on this occasion.

## COMMISSIONERS PROCEEDINGS

Proceedings of the Board of County Commissioners of Crow Wing County, Minnesota

Pursuant to adjournment, the board met at the court house in the city of Brainerd on June 5th, 1917, at 10 o'clock A. M.

Present, Commissioners Crust, Erickson and Syreen.

Minutes of the meeting held May 1st, 1917, were read and duly approved.

Commissioner Syreen, to whom was referred at the May 1st meeting the application of the Shawmut company and others for a reduction in the valuation of lands in Sec. 9, Twp. 46, Rge. 29 reported that he had made an investigation and he did not think that the lands warranted the valuation placed upon them. The board, being unable to determine the merits of the application, referred the same without approval to the Minnesota Tax Commission for further investigation.

The following applications were received and referred to the Minnesota Tax Commission without approval for investigation:

Charles J. O'Connell, for a reduction in the valuation of the NW 1/4 of NE 1/4, the NE 1/4 of NW 1/4 and the NW 1/4 of NW 1/4 Sec. 34, Twp. 47, Rge. 29.

Joseph J. Hennen, for a reduction in the valuation of the NW 1/4 of SE 1/4 Sec. 1, Twp. 46, Rge. 29.

W. L. Taylor, for a cancellation of the valuation of improvements assessed against the NE 1/4 of NE 1/4, Sec. 13, Twp. 45, Rge. 30.

W. F. Wieland, attorney for Cuyler Adams, for a reduction in the valuation of outlot 1, Hale's Second Addition to Crosby.

Commissioner Mathison joined the meeting.

The following applications were granted subject to the approval of the Minnesota Tax Commission:

C. L. Burnett, for a cancellation of valuation for improvements assessed against lot 1 of Cullen Lake Park.

Abraham Larson, for a reduction of the valuation of the NW 1/4 of NE 1/4, Sec. 13, Twp. 136, Rge. 29.

Franklin W. Merritt, for a cancellation of taxes against minerals reserved on the NW 1/4 and the W 1/2 of SW 1/4, Sec. 25, Twp. 44, Rge. 31.

Bwanago Mining Co. for a cancellation of personal property taxes in the Town of Nokay Lake and the Village of Ironton, account all assessed in the Village of Deerwood.

An application was received from John Mann for a reduction in the valuation against lot 5, block 2, Midland and, on motion, the same was referred to Commissioner Crust for investigation.

The following applications were denied:

Fort Ripley State Bank, for a reduction in the valuation of lot 1, block 1, Town of Ft. Ripley.

J. W. Riddle, for a reduction in the valuation of lot 6, block 4, Village of Jenkins.

Board adjourned for the noon hour. Board met at 2:30 p. m., all members present except Commissioner Walker.

On motion, the register of deeds was authorized to have rebound certain book records in his office in need of repair.

An application was received from the Town Board of the Town of Timothy asking for an appropriation to aid said town in repair of the Pine River-Outlet road in Sec. 26, Twp. 138, Rge. 28 and, on motion, \$100 was appropriated for that purpose and one large culvert in stock, furnished.

Ole Holm, representing the Town of Ideal, appeared before the board in reference to a road in Sec. 26, Twp. 137, Rge. 28. He also called their attention to the condition of the bridge between Bass and Kimball lakes in Sec. 26 and on motion, both matters were referred to the county engineer.

It was moved and seconded that the salary of the county engineer, C. L. Motl, be increased from \$140 to \$150 per month. Motion carried.

The county agent, E. A. Colquhoun, appeared before the board and explained the work he was carrying on, and on motion, the same was unanimously approved by the board.

The report of the committee ap-

pointed to look over the county farm, the bridge site on the Nokay Sebie river in Sec. 5, Twp. 44, Rge. 29 and a bridge recently constructed in Garrison township was received and read. On motion, the same was accepted and ordered placed on file.

Depository bond of the Citizens State bank of Brainerd, in amount \$10,000, the Fidelity and Deposit company of Maryland, Surety, was received and, on motion, the same was approved.

A communication was received from the state auditor in reference to re-appraisal of SW 1/4 of NE 1/4, Sec. 36, Twp. 44, Rge. 31 with the request that an appraiser be appointed under provisions of Chapter 5219 General Statutes of 1913. On motion Geo. H. Gardner was appointed to act in the capacity mentioned.

Miss Motl appeared before the board in the interest of the state board of health urging the county to make a health survey of school children of Crow Wing county. The matter was taken under advisement.

The county engineer, to whom was referred at the May 1st meeting the petition for cleaning out ditch No. 14 submitted a report and, on motion, same was accepted and the engineer instructed to take up with the Northern Pacific Railway company for the lowering of the culvert at outlet of Crow Wing lake and to take the necessary steps to have the ditch repaired under legal advice as to procedure from the county attorney.

The report of the engineer to whom was referred proposed bridge in Sec. 10, Twp. 43, Rge. 29 was read and, on motion, the same was accepted and ordered placed on file.

The engineers reported verbally on work done on state road No. 2 west and on the approach thereto; on work being done on state road No. 3 and approach to state road No. 4 and on motion the same was approved.

On motion the engineer was instructed to purchase six road planers. An application was received from Nellie M. Keen to have the plat of Klondike, First addition restored to acre property. On motion, the same was referred to the county attorney.

Commissioner Syreen offered the following resolution and moved its adoption:

"Be it resolved that the part of state road No. 6 covered by plans No. 18,137 on file in the office of the county auditor be constructed according to such plans and under the supervision or direction of the highway engineer;

That the said work shall be known as 1917 Job No. 1708;

That state aid will be applied on said job;

That the surfacing and guard railing be done by day labor;

That C. L. Motl, as superintendent and engineer be authorized to issue time checks on said job according to Chapter 182, Laws of 1915;

That the labor shall be paid in the following manner: on the first and sixteenth day of each month;

That C. L. Motl, as engineer and superintendent is authorized to purchase the necessary materials for said job and have verified bills for same submitted to the county board;

That the total amount to be expended on said job shall not exceed \$1000."

Which resolution being seconded by Commissioner Mathison was duly carried, all members voting aye.

Commissioner Erickson offered the following resolution and moved its adoption:

"Be it resolved that the part of state road No. 7 covered by plans No. 18,108 on file in the office of the county auditor be constructed according to such plans and under the supervision or direction of the highway engineer;

That the said work shall be known as 1917 Job No. 1707A;

That state aid will be applied on said job;

That the surfacing of stations 111 to 138 be done by day labor;

That C. L. Motl, as engineer and superintendent be authorized to is-

sue time checks on said job according to Chapter 182, laws of 1915;

That the labor shall be paid in the following manner: on the first and sixteenth day of each month;

That C. L. Motl, as engineer and superintendent, is authorized to purchase the necessary materials for said job and have verified bills for same submitted to the county board;

That the total amount to be expended on said job shall not exceed \$1,000."

Which resolution being seconded by Commissioner Syreen was duly carried, all members voting aye.

On motion, the county engineer was instructed to investigate the condition of Highfield Hill on state road No. 5.

A motion was made that on June 11th the board view proposed work on extension of state road No. 5 and proposed work on state road No. 6 east of Deerwood. Motion carried.

The following bills were allowed:

## DES MOINES CHOSEN FOR BIG ARMY CAMP

Washington, June 13.—Minnesota has lost the Thirteenth divisional cantonment for the new army to Iowa.

The war department announced that Des Moines has been awarded the camp.

It was said at the office of Newton D. Baker, secretary of war, that Des Moines was chosen because the extra land needed near Fort Snelling was held at an exorbitant price.

Minnesota lost the cantonment for these two reasons:

The price asked for the extra land needed at Fort Snelling was declared exorbitant by the war department.

Iowa is dry and Minnesota is wet.

The fact that the wet and dry element had entered into the contest did not become known until after the announcement of the selection was made by Secretary of War Baker.

## AROUND FORT SHERIDAN

Army Officer Asks Dry Zone of Fifteen Miles.

Chicago, June 13.—A fifteen-mile dry zone radiating from Fort Sheridan is the probable outcome of action by Colonel Nicholson, in charge of the reserve officers' training camp.

The colonel asked for county supervisors to revoke all liquor licenses in the fifteen-mile limit.

He told them the move is a national necessity and appealed to their patriotism. The plan to train a part of the conscript army in the vicinity also prompted the request, he said.

The legislature recently refused to make the district dry.

FRENCH CREDITS REACH  
100,000,000,000 FRANCS.

\*\*\*\*\*  
Paris, June 12.—The French chamber of deputies has already voted 100,000,000,000 francs in war credit, according to a report made by Raoul Peret, reporter for the budget committee of the chamber of deputies. This sum includes the credits for the third quarter of 1917 and 7,000,000,000 francs advanced to France's allies.

## HOPES TO HASTEN ACTION

President Will Confer With Leaders on Food Bills.

Washington, June 13.—Congressional delay in enacting food legislation was taken up by President Wilson and the cabinet and the president, it is understood, decided to take steps to hasten action.

He probably will not make a special address to congress on the subject, as has been suggested, but may call in congressional leaders again to impress on them the need for immediate passage of the bills.

## FLAG-DAY AT THE ELKS

Will be Exemplified on Thursday Evening, June 14th, at Elks Hall in This City

### OPEN TO LADIES AND VISITORS

Patriotic Program to be Given, the Elks Being a Distinctly American Organization

Flag-Day as observed by the Benevolent and Protective Order of Elks of America will be exemplified Thursday evening, June 14, at Elks hall in this city.

The strict observance of this day has been ordered by the Grand Lodge and all members are earnestly requested to be present. The exercises will be open to ladies and visitors. All members are asked to bring friends.

The patriotic program in charge of John Hurley, Herbert Peterson and Dr. I. C. Edwards.

The Flag-Day program follows: Ritual by officers of the lodge, on flag and Liberty Bell.

"Elks' Tribute to the Flag," Dr. I. C. Edwards.

"Star Spangled Banner," by Elks Trio.

"History of the Flag," reading by Mal D. Clark.

Drill by Boy Scouts.

Address by Mayor R. A. Beise. Recitation, "The Ship's Colors," by Miss Emmaglan Clarkson.

March by the children.

Recitation, "The Kid Has Gone to the Colors," by Miss Mardele Winter.

"America," led by Elks Trio, audience joining in.

The children are being trained by Miss Anne Mahlum of the Children's Hour.

## LAST CALL FOR LIBERTY BONDS

Thursday afternoon the time limit expires for the purchase of Liberty Bonds, and after 3 o'clock if you have not "done your bit" the time will be too late. Don't be among those who will regret having lost the opportunity to help the country in its hour of need.

### TO THE CITIZENS OF BRAINERD— A PROCLAMATION

Thursday, June 14th, will be observed in every city and hamlet of the nation as Flag Day and it is hoped that our people will recognize the day in the usual manner. The display of Old Glory is always inspiring and brings out the best in every citizen. At this time it will be particularly significant, in view of the fact that our government is engaged in a heroic struggle with a foreign power. I hereby call upon every citizen of this city and every organization recommend that they take unusual steps to display the flag in business places, public buildings, residences, the city schools and elsewhere. The time is short for preparation but the moment is vital and I am confident that the same spirit of patriotism which has always been manifest in Brainerd will be apparent tomorrow.

R. A. BEISE,  
Mayor.

### AMERICANS AT THE FRONT

London, June 13.—It generally takes two bullets to stop an American. Thomas St. Leger of Springfield, Mass., so scarlet headed they called him "Red" from the start, was bowled over at Lens but it took a bullet through his leg to send him to England on a stretcher. He got that at Vimy Ridge, where the American flag waved in the smoke of the battle. St. Leger served nine years in the 23rd and Third United States Infantry. He's hungry for more bayonet work and swears his sorrel-top will be seen in the thick of it again before peace arrives.

## HAS JOB NOW, WILL STAY ON

The Dispatch has received the following for publication.

Dear Dad— Miles City. I guess I have told you lots of times that I was going to stay on a job. Well I have a job now that I will stay on. I am now working for Sammy. I joined the navy this morning and I leave tomorrow night for Salt Lake via Butte, where I take another examination and then I go on board ship at Mare Island or Bremerton. I don't know what you think of this dad, but I have thought it all out and while I don't want to fight any more than the rest, I don't want to be a slacker either, and we had to have a Canan in the navy, eh, dad. I am rated as second class machinist mate, \$52 a month and a raise in three months to first class, \$74 a month, so I am all done booming now. I passed this examination O. K., so I guess I will make it O. K. I would like to see you all before I go but I won't now so I will have to wait until I come back if I ever do.

So long Bill. I will fight for both of us. Write to me at Seattle, Wash. Give my love to the rest.

Your baby boy,

MILTON CANAN.

I'll give you the right dope on this "Honolulu" stuff, Bill.

### BRAINERD'S ODDEST STORIES OF TODAY

Another king gone! They are being thrown into the discard and the two-spots are coming to the front.

"I tell you my little Raymond has an idea about the war all right, even if he's only four years old," said a fond mother. "He came to me yesterday and said:

"If two Germans should come after papa, I would kneel right down and pray Santa Claus to give me a 30-30 right away."

It was at Gull lake and the time a storm. Fishing party consisting of two young couples of the city. Hero of the occasion leaped into the breakers, pulled the boat ashore, of the twelve fish caught six swept overboard as the boat swallowed in the waves. Party marooned on a sand bar and the second hero waded to the main land and made a detour for his automobile.

It was at the Pearce block, also known as the "Honeymoon Flats." Young couple from out of town honeymooning. Mr. Newshusband became so homesick he cried at night and they both went home to mother.

"Have you seen the list of Germans that won't speak a word of German any more? They were printed in the Minneapolis Journal," said the war enthusiast.

"Why, no. Gee, let's see 'em," said the Brainerd man.

And then the war enthusiast picked up the paper and pointed to the section in the want columns where they print the ordinary obituary notices at so much per line.

That allen Finn I. W. W. delegation of seven sitting cooped up in the city jail because they won't register, might sing a different story if the whole outfit was deported back to Europe where they came from. They would be drafted to the European front in a minute, while here America gives them a haven of freedom and asks but the compliance with the law which you and I obey, but which they say they do not understand and must wait until Mr. So-and-So on the range tells them to register.

A registration card from the country states the applicant had no job, was employed nowhere and was the sole support of his wife.

## HAMMEL-FEIGH CASE ARGUMENTS

Defense Continuing With its Elaborate Argument by Three Attorneys for Dismissal

### BRING IN THE TORRENS TITLE

Charged that Hammel Knew of Torrens Proceedings and That no Partnership Shown

Arguments still continue to be made for the dismissal of the Hammel-Feigh case. On the question of laches, the court, Judge C. W. Stanton, ruled tentatively and did not dismiss the case.

Attorney Albert Fink of the defense, made a voluminous argument. He was followed by Attorney C. O. Baldwin, of Baldwin & Baldwin, Duluth, and in his argument for dismissal, reviewed phases of the testimony, charging Hammel with negligence and claiming Hammel had acted in bad faith.

"Hammel," said Mr. Baldwin, "had permitted the title to stand in Feigh's name, allowed Feigh to lease the land and draw princely royalties and to Torrence the title."

The property had been registered, said Mr. Baldwin, without any reference to any partnership of Feigh or Hammel, free from any trust agreement. He said it was a burden for the defendant to go on with the trial.

Senator George H. Sullivan of Stillwater, took up the Torrens title to the property involved, claiming the title vested in Feigh and barred Hammel's claims. The decree quieted all claims known or unknown and vested the fee in Feigh subject to certain leasehold interests mentioned, he said.

Attorney H. B. Fryberger was asked if he wished to reply for the plaintiff and said "No."

At noon Attorney Fink summarized all arguments made for a dismissal of the case.

### CAR FOR WASTE PAPER

The Car in Which this Paper is to be Shipped Has Been Ordered for June 15th

The car for the shipment of waste paper under the direction of the Public Affairs committee of the Chamber of Commerce has been ordered for June 15th, and will be spotted at the Fitzer Brewing company's building on Front street, which is being used for the storage of paper by this committee.

Persons who expect to ship paper on that date are invited to weigh the paper on the city scales, separate the book paper from the newspaper stock and leave the weigh bill with the secretary. The paper must be baled or tied securely in bundles. A baler is at the store room for the use of the shipper. Prompt action is necessary and it will be a case of "first come, first served."

### DR. BURNSIDE FOSTER DEAD

Was Well Known Leader in St. Paul Medical Circles.

St. Paul, June 13.—Dr. Burnside Foster, prominent physician and medical writer of St. Paul for more than twenty-five years and known as a leader in St. Paul medical circles, is dead. He was fifty-six years old.

Dr. Foster was born in Worcester, Mass. He was a graduate of Yale and Harvard and studied in several European universities.

He was president of the Ramsey County Medical society in 1906, a member of the Minnesota Medical society and American Medical association and editor for several years of the St. Paul Medical Journal, as well as a clinical professor of dermatology and lecturer on the history of medicine at the University of Minnesota.

### Memory of Kant.

Kant is known throughout the world as philosopher and metaphysician. But in his lifetime he was almost equally famous for his truly prodigious memory. He kept no library, for a book once read by him was always remembered. Although he never went outside the boundaries of Prussia, he once amazed an English traveler by describing to him in the course of conversation with most elaborate details the height, length, breadth, dimensions and structure of Westminster bridge.

### GONE FOR GOOD

Results That Last Are What Appeal to Brainerd People

Kidney sufferers in Brainerd want more than temporary relief. They want results that last—Results like Mr. Wick tells about. His was a thorough test. Three years is a long time. Doan's Kidney Pills have stood the test and stood it well. Why experiment with an untried medicine?

People here in Brainerd have shown the way. Read Mr. Wick's story: William Wick, R. F. D. No. 4, W. Brainerd, says: "I had kidney and bladder trouble and nothing seemed to benefit me. My back was so bad at times that I couldn't stoop or straighten after I had been sitting for awhile. I got Doan's Kidney Pills at H. P. Dunn's drug store and they fixed me up in good shape."

### A PERMANENT CURE.

Over Three Years Later Mr. Wick said: "I am glad to say the cure Doan's Kidney Pills made has been permanent." Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wick has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Advt.

## Association Should Keep its Head Up

BY H. C. HAMILTON,  
(United Press Staff Correspondent.)

New York, June 12.—The American association, called the strongest minor league in the country, should have thought it over pretty carefully before standing sponsor for the statement that unless things changed very quickly it would have to close its gates. It recently was reported in New York and elsewhere that all arrangements had been made to end the season, disband the clubs and wait for another year.

To have closed the gates in May would have been disastrous—not only for the present year, but for succeeding seasons. The work of years would have been wiped out. Regardless of the fact that protection may have been granted by the national association, outlaw owners would have started something in these cities, and doubtless are laying plans now to grab off these excellent baseball towns if the opportunity presents itself.

President Thomas J. Hickey committed a grave error, in the opinion of many persons, when he dropped four of the eight umpires with which he started the season. One well known eastern baseball man, at least pleaded with Hickey not to endanger the fairness of ball games in the association by making one man handle all decisions.

Hickey maintained it was not to cut expenses, but one conservative umpire, a veteran in the harness, recently declared that economy practiced along this line is the worst sort.

"It is impossible," he said, "for one man to get all over the field. Imagine a double play, one man out at second base and the other at the home plate. It's killing for a man to plunge all over the field in a free-hitting contest. Hickey should have taken some other step."

Hickey's faint heart is winning a great deal of criticism in the east. His statements have been pessimistic in the extreme. If the association deems it wise to stop it is safe to say the declaration of this fact will influence many smaller organizations to take the step.

### TRENCH TALES

London, June 13.—An instance of German "Kaiser hat-red" was described by a wounded engineer.

"In a house in one of the villages we captured a few days ago, that had evidently been some kind of headquarters, there was a large picture of the Kaiser on the wall. Several German prisoners were brought in the house. One of them on seeing the Kaiser's picture spat on it. We asked him why he spat on the picture, and if he was a Saxon."

"No Englishman," he replied, "I'm a Prussian, but I'm fed up, and he's the devil who started this." —Advt.

To Test Military Road.  
The automobile caravan which will be sent out in May by the San Francisco Advertising club has assumed military importance as a test of road conditions in that stretch of country between San Francisco and Denver, through which there run but three trunk line railroads. In the event of the disabling of these railroads through the mountains the highways would be some of the utmost importance, and the necessity of having ready information regarding the conditions not only of the Lincoln highway, but of an alternate route, has been seen by the military authorities.

A one and one-half ton motor truck will accompany the delegation eastward and will be required to keep up with the tourists at all times. Over the entire 2,500 miles this rear guard equipped as a motor prairie schooner will be obliged to average well over 200 miles daily at a speed of more than twenty-five miles an hour. In accomplishing this it will prove the military importance of the route for transporting supplies and ammunition.

## CAPTURE GASPARD VILLAGE

Smash at German Front Results in General Haig's Forces Taking Nearly Two Miles of Trenches—Russians Are Believed to Have Started Drive on Eastern Front.

London, June 12.—In the fighting zones the situation is comparatively calm, except on the British front in France, along the line held by the French troops against the Germans in the region running eastward from Soissons into Champagne and on several sectors of the Austro-Italian theater.

Sir Douglas Haig's troops again have smashed into the German front east and northeast of Messines and largely extended the gains previously made in this region.

Nearly two miles of trenches were occupied by the British and the village of Gaspard, east of Messines, was captured. Berlin reports activity by British cavalry east of Messines Monday afternoon, but says the attack was repulsed and only remnants of them were able to return to their positions.

The German artillery in the neighborhood of Lens and Ypres is bombarding the British line.

The Russian army probably has begun the looked for drive against the Germans, although there has been no official announcement from Petrograd. Berlin reports new activity on the Eastern front.

The artillery of the French and Germans still is active along the Chemin-des-Dames and in Champagne. The French made raids on German trenches near the Butte-de-Mesnil and in the region of Haute Chevauchee, doing considerable damage to the positions and capturing prisoners.

Bad weather has caused some cessation of activity in the Trentino district of the Austro-Italian theater, although artillery duels continue.

## TOWED INTO SPANISH PORT

German Submarine Had Been Disabled by Gunfire.

Cadiz, Spain, June 12.—The Spanish torpedo boat No. 6 discovered the German submarine U-52 disabled from gunshots which had struck its engines. The submarine was towed into Cadiz and stripped of its wireless apparatus, so that the vessel could not communicate with vessels of the central powers interned in this port.

Repairs to the German submarine will take at least two days, but it is believed the vessel will be interned. The submarine is of 450 tons and carries a crew of twenty men. It is equipped with two torpedo tubes and two rapid-fire guns.

# PRESIDENT'S NOTE PRAISED BY ITALY

Rome, June 12.—A semi-official communication, given out here, says, in commenting on President Wilson's note to Russia, the return of Alsace-Lorraine to France, Trentino, Trieste, Istria and Dalmatia to Italy, Transylvania to Rumania and Bosnia and Herzegovina to Serbia would not have the character of annexation, but rather of restitution of territory.

"President Wilson's message to Russia is a lucid, sympathetic and energetic document," the communication says. "American good sense has gone directly to the heart of the enemy's treachery. The aims for which the United States entered the war, as stated by President Wilson, agreed perfectly with those of the allies. President Wilson explains, confirms and supports them.

"The interpretation which President Wilson gives to the principle of no annexation corresponds in spirit with the thesis maintained by the allies."

## POLES SHY AT PROMISES

Central Powers Fail to Gain Their Confidence.

Washington, June 12.—Cable advices received by Ignace J. Paderewski, Polish pianist, from the central Polish agency in Lausanne and other sources have confirmed the report the central powers have failed absolutely in their attempts to win the Poles to their cause.

"Polish supporters abroad declare the united independent Poland, according to these advices, has not only blanketed but made ridiculous the paper kingdom promises of the German and Austrian authorities," says the Polish press agency here.

"Polish supporters abroad declare the Wilson message has been the most serious blow to the schemes of the German government that has been delivered."

# ARMY NEEDS 70,000 MORE MEN BY JUNE 30

Washington, June 12.—The war department has called for 70,000 additional recruits to fill the regular army to war strength before June 30.

"The cavalry, engineers, coast artillery, signal corps and quartermaster corps of the regular army already have been brought to war strength," says an official statement.

"Forty-five thousand recruits are needed at once to complete the new regiments of infantry and field artillery. Twenty-five thousand additional recruits are desired at the earliest practicable date to fill vacancies in order that the war strength of 300,000 men may be maintained.

"Facilities are in readiness for placing these 70,000 men under proper training. Any delay in obtaining this number necessarily will cause the loss of valuable time.

"It is the earnest desire of the war department that 70,000 single men between the ages of eighteen and forty, who have no dependents and who are not engaged in professions, business or trades vitally necessary to the prosecution of the war, be enlisted in the regular army before June 30, 1917."

## HINT AT LIBERAL TERMS

German Socialists Say Their Peace Plan Is Reasonable.

Stockholm, June 12.—Prediction that the German peace statement, to be issued by the German majority Socialists, will "favorably impress the entente" by reason of its liberality, was asserted by a member of the Dutch-Scandinavian committee who has been conferring with the Germans. In view of this hint the Dutch-Scandinavian committee immediately telegraphed Petrograd, urging that the Russian workmen and soldiers' council send delegates at once.

## URGENT CALL IS SENT OUT

Banks Slow in Reporting Progress of Liberty Loan.

Washington, June 12.—Treasury officials declared that because of the failure of many banks to report they are unable even to estimate the progress of the Liberty loan since Friday night, when only \$1,300,000,000 of the \$2,000,000,000 apparently had been taken.

Another urgent call went out asking banks to report subscriptions. The call was disseminated through the twelve federal reserve banks.

Reports from many cities told of gratifying progress, but in most cases contained no figures.

## RESTRICTIONS ON TRAVEL

All Persons Leaving United States Must Have Passports.

Washington, June 12.—Secretary W. C. Redfield has directed all steamship companies to accept no passengers for foreign ports, either American citizens or aliens, unless they possess passports from the state department. The department of labor at the same time ordered its agents to be particularly careful in admitting persons into the country. To put a double check on outgoing passengers Mr. Redfield directed the shipping companies to accept no passports unless advised.

## SECOND SON SUCCEEDS HIM

Crown Prince George Is Prevented From Ascending Throne on Account of His Being Considered Strongly Pro-German—New Monarch Is Twenty-four Years of Age.

Athens, June 12.—The fall of Constantine I., king of the Hellenes, has come. In response to the demand of the protecting powers, France, Great Britain and Russia, he has abdicated in favor of his second son, Prince Alexander.

This climax in the affairs of Greece was brought about through the agency of the French senator, M. Jonnart, who arrived at Athens only a few days ago on a special mission as the representative of France, Great Britain and Russia.

The demands of the powers respecting the abdication of King Constantine also specifically eliminated Crown Prince George as his successor, the crown prince being included among those Greeks in official life considered strongly pro-German.

Both the former king and Prince George, it was announced by Premier Zaimis, intend to leave the country immediately. It is reported they will embark on a British warship and proceed to Switzerland by way of Italy.

It is presumed Prince Alexander will take up his kingly duties with full acceptance of the ideas which the protecting powers desire to be put into effect in the government of Greece during the war. He is twenty-four years old and has been free from anti-entente proclivities.

Affairs in Greece, which several times since the outbreak of the war had seemed on the verge of a settlement, recently have taken on such an aspect of uncertainty it became necessary for the powers to act with decision.

M. Jonnart proceeded to Athens to lay before the premier the aims which France, Great Britain and Russia had with respect to establishing unity of feeling among the Greeks and greater security for the entente forces engaged in operations in the East.

## ASCENDED THRONE IN 1913

Prior to the War King Constantine Was Very Popular.

London, June 12.—The reign of Constantine I., as king of the Hellenes dated from March 18, 1913, when his father, George I., was assassinated in Saloniki.

Constantine had enjoyed, prior to the beginning of the great war in 1914, a period of remarkable popularity and had increased the territory of the Greek monarchy by more than 50 per cent.

His attitude of opposition toward the entente powers when their troops occupied part of Greek territory in the Macedonian campaign against the Teutonic allies, however, brought him into conflict with the statesmen of Greece and resulted in the establishment of a provisional government headed by Eleutherios Venizelos whom the king had driven from the post of premier.

Throughout a long series of negotiations and conflict with the entente commanders Constantine was often accused of being pro-German in sympathies, largely, it was charged, as a result of the influence of Queen Sophia, sister of the German emperor, whom he married in 1889. Constantine declared throughout that he desired only to maintain neutrality.

## ELEVEN BIG SHIPS ARRIVE

Dock at Unknown Atlantic Port in Last Few Days.

An Atlantic Port, June 12.—Eleven large steamships aggregating 169,000 tons, six of them being under the American flag, with a total tonnage of 77,274, have docked here within the last day or two, it was announced by the International Mercantile Marine owner of the vessels.

Among them was the Minnesota, 20,718 tons, being the largest merchant ship afloat under the Stars and Stripes. The other American ships were the St. Louis, St. Paul, Philadelphia, Manchuria and Finland.

The largest of the eleven arrivals was the British ship Justicia, a new vessel of 32,234 tons. She is the biggest steamer to come into a port of this country, it was stated, since the Olympic left in 1914.

# BROAD POWERS GIVEN TO WILSON

Hoke Smith Protested Against the Railroad Measure.

## GAVE EXECUTIVE CONTROL

Many Important Bills Have Recently Been Under Consideration, and These Account For the Delay That Has Been Shown in Both House and Senate. Novel Features Proposed.

By ARTHUR W. DUNN.

Washington, June 12.—[Special.]—As different bills are brought forward in connection with the war protests arise against granting extraordinary powers to the executive department. One of the measures to bring forth a protest was the bill authorizing the president to take control of railroads to an extent for war purposes.

The most vigorous protest against that bill was by Senator Hoke Smith of Georgia. He referred to it as an "astounding proposition," so "far-reaching that I have not been able to grasp it," that it "transferred to the president the entire transportation system of the country." He concluded his brief review of the measure by saying "if the railroads are to be operated under government control we should settle in detail some of the policies and manner of operation."

Subjects of Discussion.

Perhaps those who have been impatient on account of the deliberation with which congress has been proceeding are not aware that many such measures have been brought forward, many new ideas advanced and many grants of power requested, all of which are entirely novel in our scheme of government. That is why apparently so much time has been taken in considering the bills.

In nearly all cases the power is lodged in the president, but everybody in congress knows that this means giving power to the man the president designates to exercise it. It would be impossible for the president to look after all the matters that are entrusted to him, and no matter how much confidence there may be reposed in the president, there is not so much trust in the ability and trustworthiness of all of his subordinates.

Gore's Christmas Tree.

As chairman of the agricultural committee Senator Gore of Oklahoma had charge of the bill labeled, "To further provide for the national security and defense by stimulating agriculture and facilitating the distribution of agricultural products."

It was before the senate a long time, and many amendments were offered to it. All sorts of legislative enactments were included, Senator Gore accepting them rather than prolonging the discussion. After a time he remarked:

# PRINTERS' INK

# Advertise in the Dispatch

that the bill was "being treated as if it were a Christmas tree on which everybody is entitled to hang anything he wants to."

Nelson's Lost Bullet.

When the Confederate veterans were in Washington stories of civil war days were recalled. "I wonder," remarked Senator Nelson of Minnesota, who was in a Wisconsin regiment during the war, "if the fellow who tried to give me a bullet is in the crowd here. It was down in the southwest. I was shot in the leg and had to lie on the field. The Confederates charged over the field late in the afternoon, and I was captured. A young doctor dressed my wound, cutting out the bullet, which lay next to the skin after passing through my leg.

"Here, Yank," he said, holding up, "is your rebel bullet."

"I had been out in the hot sun all day, and I was not feeling very well. 'To h—l with your rebel bullet!' I said, and flung it out in the grass. I have been sorry I didn't keep it as a memento."

Supply and Demand.

Senator France of Maryland made his first speech in the senate not long ago, speaking of the food situation. "There is only one way to reduce the price of food in this country," he said, "and that is to produce more food."

Thus he stated in plain terms the law of supply and demand.

Of course the idea is beginning to sink into the minds even of legislators, most of whom know little about farming, that one great difficulty in producing more food is to find labor.

West and the Lands.

Considering a proposition in regard to public lands in the west, Senator Husting of Wisconsin had shown alarm lest the public domain might be wasted and spoke rather plainly about public land policy.

"The senator is apparently sincere in his belief," remarked Senator Fall of New Mexico, "that whenever one of us from the western states mentions public lands we are making a raid upon the public heritage of Wisconsin. I understand that some people who have had their pie and eaten it are inclined to think that those of us who are struggling with the developments of the west are incompetents or else we are worse than grafters."

That so aroused Husting that he accused Fall of making a "tirade" and used other words which Vice President Marshall said were not in order.

## RELEASE WOOL SHIPMENTS

British Allow Large Stock to Come to America.

Washington, June 11.—Great Britain has released 45,000 bales, about 16,000,000 pounds of Australian wool, for immediate shipment to the United States, the department of commerce announced.

This action is expected to relieve the wool shortage which has prevailed to some extent for several years, owing to British war export restrictions, and which became especially marked recently when the government sought to place large orders for khaki cloth and other woolen materials for military use.

Choosing a Life Partner.

The plainest features become handsome unaware when associated only with kind feelings and the loveliest face disagreeable when linked with ill humor or caprice. People should remember this when they are selecting a face which they are to see every morning across the breakfast table for the remainder of their lives.—N. P. Willis.

Window Glass.

Window glass is blown in the shape of long cylinders, which are cut open along one side and then placed on a stone in a hot furnace, where they gradually collapse and flatten out into a big sheet of glass. Often the glass breaks during this process or even explodes, forming thousands of pieces, which shoot in all directions.

The Hebrew instrument made of the horn of a ram, sometimes of an ox, has been usually translated "trumpet," but "cornet" is the more proper translation.
